# Community

The **ArbKatt-Ai** Token project aims to create the largest meme-themed community on the Arbitrum blockchain. The project will provide various benefits to its users, such as freemint dual-life NFTs, OG and early supporter NFTs, and public mint NFTs.

Additionally, the project will reward holders of its NFTs and the Arbitrum token airdrop claimers through a unique tokenomics structure. The Katt Token community will be active on various social media platforms, including Twitter, Telegram, and Discord, where users can engage with each other and stay up to date with the latest developments.

# Mission

Reinventing the community spirit of meme token, bringing back the hype of last bullrun through community backed token with full commitment from the team.

Give mass attention to Cat meme themed concepts, make cat great again while delivering the best concept to drive mass adoption to the arbitrum chain.

# Roadmap

**ArbKatt-Ai** roadmap outlines the team's plans to execute its mission. The project's initial focus is on building a strong community around the Katt Token, with a range of initiatives planned to drive growth and increase participation. This includes airdrops, token claims, and multiple CEX listings. The project also plans to explore partnerships and collaborations to expand its reach and increase adoption.

## Plans to Execute

**Airdrops:** The project will provide an airdrop of KATT coin to all holders, with the reward based on categories and the number of NFTs held.

**Token claims:** The airdrop claim for all categories will commence after the NFTs are minted out, and the token claim duration will be 48 hours. (All unclaimed token after this period will be burned)

**Multiple CEX listings:** The project will be initially listed on Uniswap, with multiple CEX listings to be implemented within 48 hours after the DEX listing.

## Plans to Execute

**Partnerships and collaborations:** The project plans to explore partnerships and collaborations to expand its reach and increase adoption.

**Community engagement:** The project will engage with its community through various social media platforms, including Twitter, Telegram, and Discord, to build a vibrant and engaged community.
